

## Euronet Worldwide Reports Third Quarter 2018 Financial Results

October 19, 2018

LEAWOOD, Kan., Oct. 18, 2018 (GLOBE NEWSWIRE) -- Euronet Worldwide, Inc. ("Euronet" or the "Company") (NASDAQ: EFFT), a leading electronic payments provider, reports third quarter 2018 financial results.

**Euronet reports the following consolidated results for the third quarter 2018 compared with the same period of 2017:**

- Revenues of \$714.5 million, a 12% increase from \$637.8 million (14% increase on a constant currency<sup>(1)</sup> basis).
- Operating income of \$150.9 million, a 29% increase from \$116.9 million (30% increase on a constant currency basis).
- Adjusted operating income<sup>(2)</sup> of \$150.9 million, a 29% increase from \$117.0 million (30% increase on a constant currency basis).
- Adjusted EBITDA<sup>(3)</sup> of \$181.4 million, a 25% increase from \$145.4 million (26% increase on a constant currency basis).
- Net income attributable to Euronet of \$102.7 million or \$1.89 diluted earnings per share, compared with net income of \$100.3 million or \$1.80 diluted earnings per share.
- Adjusted earnings per share<sup>(4)</sup> of \$2.16, a 34% increase from \$1.61.
- Transactions of 1.02 billion, a 10% increase from 931 million.

"We delivered exceptional third quarter results, highlighted by adjusted EPS of \$2.16, a 34% year-over-year increase," stated Michael J. Brown, Euronet's Chairman and Chief Executive Officer. "This strong growth included contributions from all three segments. EFT and Money Transfer continued to deliver double-digit constant currency revenue and operating income growth, while continuing to invest for future expansion. And, epay continued to grow non-mobile to offset certain mobile declines."

See the reconciliation of non-GAAP items in the attached financial schedules.

### Segment and Other Results

**The EFT Processing Segment** reports the following results for the third quarter 2018 compared with the same period or date in 2017:

- Revenues of \$261.7 million, a 16% increase from \$226.3 million (18% increase on a constant currency basis).
- Operating income of \$110.4 million, a 27% increase from \$86.8 million (28% increase on a constant currency basis).
- Adjusted EBITDA of \$127.1 million, a 25% increase from \$101.6 million (26% increase on a constant currency basis).
- Transactions of 711 million, a 16% increase from 614 million.
- Operated 41,902 ATMs as of September 30, 2018, a 10% increase from 38,105.

Double-digit third quarter constant currency revenue, operating income and adjusted EBITDA growth was largely the result of a 10% year-over-year increase in active ATMs and a 16% increase in transactions. The increase in transactions was primarily from growth in Europe and India - including an increase in the number of value added transactions, such as dynamic currency conversion, domestic and international surcharge, and foreign currency dispensing transactions - on both ATMs and point-of-sale terminals.

The year-over-year increase in ATM count was due to the deployment of approximately 3,250 high-value ATMs across Europe and India, the acquisition of approximately 400 Easycash ATMs in Ireland and approximately 160 ATMs under our low-margin agreements in India.

**The epay Segment** reports the following results for the third quarter 2018 compared with the same period or date in 2017:

- Revenues of \$185.4 million, a 1% increase from \$184.2 million (3% increase on a constant currency basis).
- Operating income of \$16.4 million, a 4% increase from \$15.7 million (6% increase on a constant currency basis).
- Adjusted EBITDA of \$18.3 million, a 1% increase from \$18.2 million (2% increase on a constant currency basis).
- Transactions of 284 million, a 3% decrease from 293 million.
- Point-of-sale ("POS") terminals of approximately 687,000 as of September 30, 2018, a 2% increase from approximately 673,000.
- Retailer locations of approximately 334,000 as of September 30, 2018, a 9% increase from approximately 306,000.

In January 2018, the Company prospectively adopted the newly required Generally Accepted Accounting Principle standard ASC 606, and as a result now reports certain revenues in the epay segment on a net basis rather than a gross basis as done in prior years. Had epay not adopted ASC 606, revenues would have been approximately \$16.4 million greater on a reported basis or 10% reported growth, and \$17.3 million greater on a constant currency basis, or 12% constant currency growth, with no impact on gross profit.

Adjusted for the adoption of the revenue recognition standard, epay third quarter constant currency revenue, operating income and adjusted EBITDA growth was primarily the result of increased sales of non-mobile products, partially offset by certain mobile transaction declines. Operating income also benefited from certain intangible assets becoming fully amortized in late 2017. Consistent with previous quarters, the 3% decline in transactions

was largely the result of the loss of a high-volume, low-margin mobile customer in the Middle East.

**The Money Transfer Segment** reports the following results for the third quarter 2018 compared with the same period or date in 2017:

- Revenues of \$268.4 million, an 18% increase from \$228.1 million (18% increase on a constant currency basis).
- Operating income of \$34.3 million, a 41% increase from \$24.3 million (42% increase on a constant currency basis).
- Adjusted EBITDA of \$42.2 million, a 33% increase from \$31.7 million (34% increase on a constant currency basis).
- Total transactions of 27.8 million, a 16% increase from 23.9 million.
- Network locations of approximately 361,000 as of September 30, 2018, a 9% increase from approximately 332,000.

Double-digit constant currency revenue, operating income and adjusted EBITDA growth was driven by strong growth across all sectors of the money transfer business, including both physical and digital transfers.

Third quarter money transfers grew 16% and non-transfer transactions, such as currency exchange and check cashing, grew 22%, resulting in total transaction growth of 16%.

**Corporate and Other** reports \$10.2 million of expense for the third quarter 2018 compared with \$9.9 million for the third quarter 2017. Increased corporate expense on an adjusted basis is largely due to increased short-term compensation expense based on Company performance.

### **Balance Sheet and Financial Position**

Unrestricted cash on hand was \$1.13 billion as of September 30, 2018, compared to \$1.16 billion as of June 30, 2018. Revolver repayments, repayment of the term loan and settlement timing in the business were largely offset by cash generated from operations.

Total indebtedness was \$889 million as of September 30, 2018, compared to \$1.01 billion as of June 30, 2018. Debt decreased primarily as a result of revolver repayments due to lower seasonal ATM cash requirements at the end of the third quarter and repayment of the Company's term loan.

### **Guidance**

The Company currently expects adjusted earnings per share for the fourth quarter 2018, assuming foreign currency exchange rates and the Company's share price remain stable through the end of the quarter, to be approximately \$1.27.

### **Non-GAAP Measures**

In addition to the results presented in accordance with U.S. GAAP, the Company presents non-GAAP financial measures, such as constant currency financial measures, adjusted operating income, adjusted EBITDA and adjusted earnings per share. These measures should be used in addition to, and not a substitute for, revenues, net income, operating income and earnings per share computed in accordance with U.S. GAAP. We believe that these non-GAAP measures provide useful information to investors regarding the Company's performance and overall results of operations. These non-GAAP measures are also an integral part of the Company's internal reporting and performance assessment for executives and senior management. The non-GAAP measures used by the Company may not be comparable to similarly titled non-GAAP measures used by other companies. The attached schedules provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.

The Company does not provide a reconciliation of its forward-looking non-GAAP measures to GAAP due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for GAAP and the related GAAP to non-GAAP reconciliation, including adjustments that would be necessary for currency exchange rate fluctuations and other charges reflected in the Company's reconciliation of historic numbers, the amount of which, based on historical experience, could be significant.

(1) Constant currency financial measures are computed as if foreign currency exchange rates did not change from the prior period. This information is provided to illustrate the impact of changes in foreign currency exchange rates on the Company's results when compared to the prior period.

(2) Adjusted operating income is defined as operating income excluding expenses related to the 2017 proposed MoneyGram acquisition and impairment charges.

(3) Adjusted EBITDA is defined as net income excluding interest, income tax expense, depreciation, amortization, share-based compensation, expenses related to the 2017 proposed MoneyGram acquisition, impairment charges, and other non-operating or non-recurring items that are considered expenses or income under U.S. GAAP. Adjusted EBITDA represents a performance measure and is not intended to represent a liquidity measure.

(4) Adjusted earnings per share is defined as diluted U.S. GAAP earnings per share excluding, to the extent incurred in the period, the tax-effected impacts of: a) foreign currency exchange gains or losses, b) goodwill and intangible asset impairment charges, c) gains or losses from the early retirement of debt, d) share-based compensation, e) acquired intangible asset amortization, f) expenses related to the 2017 proposed MoneyGram acquisition, g) non-cash interest expense, h) non-cash income tax expense, i) certain impacts of the tax reform legislation passed in 2017, and j) other non-operating or non-recurring items. Adjusted earnings per share represents a performance measure and is not intended to represent a liquidity measure.

(1) Intangible asset amortization of \$5.6 million and \$6.2 million are included in depreciation and amortization expense of \$26.5 million and \$24.7 million for the three months ended September 30, 2018 and September 30, 2017, respectively, in the consolidated statements of income.

(2) Share-based compensation of \$4.0 million and \$3.7 million are included in salaries and benefits expense of \$93.1 million and \$82.1 million for the three months ended September 30, 2018 and September 30, 2017, respectively, in the consolidated statements of income.

(3) Expenses incurred for the proposed acquisition of MoneyGram of \$0.1 million are included in the selling, general and administrative expenses of \$49.3 million for the three months ended September 30, 2017, in the consolidated statements of income.

(4) Non-cash interest accretion of \$2.9 million and \$2.8 million are included in interest expense of \$11.4 million and \$9.5 million for the three months ended September 30, 2018 and September 30, 2017, respectively, in the consolidated statements of income.

(5) Adjustment is the aggregate U.S. GAAP income tax effect on the preceding adjustments determined by applying the applicable statutory U.S. federal, state and/or foreign income tax rates.

(6) Adjustment is the cash tax impact recognized on certain items such as the utilization of certain material net deferred tax assets and amortization of indefinite-lived intangible assets. Additionally, during the three months ended September 30, 2017, the Company recognized a U.S. GAAP income tax benefit related to the release of a \$16.3 million valuation allowance on certain foreign net deferred tax assets and removed the effect from adjusted earnings per share for those benefits that will not be realized in cash during the current period.

(7) Adjusted earnings and adjusted earnings per share are non-GAAP measures that should be considered in addition to, and not as a substitute for, net income and earnings per share computed in accordance with U.S. GAAP.
