Item 1.01 Entry into a Material Agreement.

On March 8, 2007, Euronet Worldwide, Inc. (the "Company"), entered into a Securities Purchase Agreement (the "Purchase Agreement") with certain accredited investors (the "Investors") pursuant to which the Company agreed to issue and sell 6,374,528 shares (the "Shares") of its Common Stock, par value \$0.02, in a private placement (the "Offering"). The closing of this offering is subject to customary closing conditions. The Company expects the Offering to close on March 12, 2007.

The offering price for the Shares was \$25.00 per Share. The gross proceeds of the Offering were approximately \$159.36 million. The Company has agreed to pay the placement agent for the Offering, Banc of America Securities LLC, a commission of approximately [\$4.93] million. The Company expects that the net proceeds of the Offering, after deducting commissions and estimated expenses, will be approximately [\$154.43] million. The Company currently anticipates using the proceeds from the private placement for future acquisitions and other general corporate purposes. One of the acquisition candidates being considered, which is complimentary to one of the Company's divisions, would represent a significant acquisition for the Company. That particular candidate is running an auction process and the Company is considering whether to submit a bid, which would only be made if it is with a strategic joint venture partner. If such a joint venture is formed and is the successful bidder in that auction, the Company's part of the consideration would include cash and assumption of liabilities and would be funded through a combination of the proceeds of the Offering and available cash and potential borrowings. The financial impact of this acquisition on us is difficult to predict because it would depend on the purchase price, the cost of any debt acquisition financing, the synergies and other financial benefits from the acquisition and the structure of the joint venture. Accordingly, it is possible that the transaction may be dilutive to our earnings per share in the early term of the investment. There can be no assurance that the Company will make a bid in the auction, or if made, that the Company will be successful in completing the transaction. Until the proceeds are utilized as described above, they will be invested in short term investments. Therefore, while so invested and based on current short term interest rates,

this Offering is not expected to result in dilution to the Company's first quarter 2007 earnings per share as discussed in our press release dated February 20, 2007.

Pursuant to the Purchase Agreement, the Company agreed to, among other things, use its reasonable best efforts to prepare and file with the Securities and Exchange Commission a registration statement covering the resale of the Shares, on or before April 7, 2007, on an automatically effective "shelf" registration statement on Form S-3. The Company's failure to meet certain of its obligations under the Purchase Agreement could subject the Company to fees and penalties.

The Offering was made in reliance on the exemption from registration provided in Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"), and Rule 506 of Regulation D promulgated under the Securities Act ("Regulation D"). The Shares to be sold in the Offering were not offered by any form of general solicitation or general advertising. Each of the Investors represented to the Company that it is an accredited investor, as defined by Rule 501 of Regulation D. Certificates representing the purchased Shares issued in connection with the Offering will contain appropriate legends to reflect the restrictions on transfer imposed by the Securities Act.

Euronet Worldwide Announces Offering of \$159.36 Million of Common Stock

LEAWOOD, KANSAS--March 8, 2007--Euronet Worldwide, Inc. (NASDAQ: EEFY), a leading electronic payments provider, announced that today it entered into a definitive agreement with several institutional investors in a private placement transaction to issue and sell 6,374,528 shares of its common stock. Euronet expects the private placement to close March 12, 2007, subject to customary closing conditions.

The common shares were offered at a price of \$25.00 per share for a gross offering proceeds of \$159.36 million. Euronet currently anticipates using the proceeds from the private placement for future acquisitions and other general corporate purposes. One of the acquisition candidates being considered, which is complimentary to one of Euronet's divisions, would represent a significant acquisition for Euronet. That particular candidate is running an auction process and Euronet is considering whether to submit a bid, which would only be made if it is with a strategic joint venture partner. If such a joint venture is formed and is the successful bidder in that auction, Euronet's part of the consideration would include cash and assumption of liabilities and would be funded through a combination of the proceeds of the Offering and available cash and potential borrowings. The financial impact of this acquisition on us is difficult to predict because it would depend on the purchase price, the cost of any debt acquisition financing, the synergies and other financial benefits from the acquisition and the structure of the joint venture. Accordingly, it is possible that the transaction may be dilutive to our earnings per share in the early term of the investment. There can be no assurance that Euronet will make a bid in the auction, or if made, that Euronet will be successful in completing the transaction. Until the proceeds are utilized as described above, they will be invested in short term investments. Therefore, while so invested and based on current short term interest rates, this private placement is not expected to result in dilution to Euronet's first quarter 2007 earnings per share as discussed in our press release dated February 20, 2007.

This press release does not constitute an offer to sell or the solicitation of any offer to buy any securities. The offering was made only to accredited investors in accordance with Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"), and Rule 506 of Regulation D promulgated under the Securities Act. The securities offered in the private placement were not offered by any form of general solicitation or general advertising. The securities offered have not been registered under the Securities Act, or any state securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from registration.
